

Our Value Proposition

Our Projects

Bullabulling

- One of Australia's largest undeveloped gold projects in a world class location
- Located ~25km south-west of Coolgardie in the Western Australian goldfields
- Significant historical work and derisked pathway to near-term production
- Acquisition puts Minerals 260 on the path to becoming a mid-tier miner

Moora/Koojan

- Contiguous, 371 km² area located in the Julimar Mineral Province ~140km north NE of Perth, Western Australia
- Drilling has intersected significant mineralisation at several prospects:
 - Mynt - up to 24m @0.7 g/t Au and 1.9% Cu
 - Angepena - up to 43m @1.8 g/t Au
 - Zest - up to 12m @ 2.0g/t Au and 1.4% Cu
 - Acga - up to 3m @0.52g/t PGE

Aston

- Largely contiguous, 1,515km² area located ~850km north of Perth, Western Australia
- Located in the Gascoyne minerals province close to recent world-class, lithium and REE discoveries
- Strike extensions of prospective stratigraphy confirmed within Project area with only limited historic exploration reported
